# Who We Are ?

## TEERTHANKER MAHAVEER UNIVERSITY

Teerthanker Mahaveer University (TMU) Moradabad, UP, India (Established by the 'Act' (No. 30) of 2008 of the Government of Uttar Pradesh and is approved by UGC, MHRD Government of India. The multi-disciplinary University offers career-oriented programmes at all levels i.e. UG, PG and Doctoral degrees across diverse streams, namely, Medical, Dental, Pharmacy, Nursing, Paramedical, Sciences, Physiotherapy, Hospital Administration, Physical, Education, Management, Engineering, Polytechnic, Law, Fine Arts, Jain Studies, and Agriculture to meet rising aspirations of the youth.

## FACULTY OF ENGINEERING

Faculty of Engineering is a prime constituent of the university established to meet the growing needs of education in Engineering in diverse functional areas of the corporate world. The college has established itself as a hub of multifaceted academic, research and consultancy activities and guides students on how to climb up the corporate ladder with total professionalism and commitment.

The college offers a wide range of academic programmes at undergraduate, postgraduate and doctoral levels. All the courses are designed taking into consideration the specific needs of the market and industry. The emphasis is laid on both theoretical and practical training to provide exposure to the students in various areas of engineering. For this, the dignitaries of national and international repute are invited to guide the students in addition to the inputs from the acclaimed faculty of the college.

## ABOUT THE CONFERENCE

International Conference on Modern Trends in Computers and Electronics" (ICMCE 2026) aims to bring together leading academics, researchers, practitioners, and industry professionals from around the world to explore the latest innovations and advancements in the fields of computer science and electronics. This conference will provide a platform for discussing emerging trends, cutting-edge technologies, and research challenges that are reshaping the global technological landscape.

## OBJECTIVES OF CONFERENCE

①

Showcase Innovative Research: Present groundbreaking research in both computer science and electronics, with a focus on interdisciplinary approaches that bridge the two fields.

②

Foster Collaboration: Encourage collaboration between academia, industry, and government entities to address challenges and identify opportunities for technological growth.

③

Promote Knowledge Sharing: Provide a forum for experts to exchange ideas on topics such as artificial intelligence (AI), machine learning, robotics, Internet of Things (IoT), microelectronics, and embedded systems.

④

Support Emerging Trends: Highlight innovations in software engineering, cybersecurity, quantum computing, and sustainable electronics to align with global trends and environmental challenges.

## CALL FOR PAPERS

ICMCE 2026 invites papers that have not been previously published in any conferences or journal. Authors are invited to submit contributions presenting research results, concepts, practical standards, running experiments, implementations, applications, and industrial case studies. All conference tracks are open to both scientists and industry contributions. After plagiarism checking and the review process, original research papers will be published by Springer Nature as Book chapters or conference proceedings.

ORAL AND POSTER PRESENTATION-  
The conference will comprise of selected oral and poster presentations.
